specific uses and rates.

Mode of Action

Pre- and Post-emergent

Signal Word

Caution

For use in conifer plantations and non-crop sites for the control of many annual and perennial grasses and broadleaf weeds. For general weed control on terrestrial non-crop sites, certain woody plants and vines.

- ▶ For pre-emergent and post-emergent control of herbaceous weeds. Best results are obtained when application is made before root system is established.
- ▶ Provides selective weed control in conifer site preparations and in the release of certain conifers and hardwoods.
- ▶ Can be tank mixed with other herbicides registered for use in conifer plantations and non-crop sites.
- ▶ Do not apply more than 10 2/3 ounces of SFM Extra per year per acre.
